1st Dist.—N. R. SCOTT, of Ohio Co.
FOR JUDGE OF FIRST CIRCUIT.
GEORGHE, CALDWELL, of Ohio Co.

TO REPUBLICANS OF WHEELING. A Grand Victory Within Your Reach An Appent for Workers.

Republicans of Ohio county, it is in your power to elect General Goff to Congress. I made this same statement to you in 1880 in relation to Mr. Hutchinson's candidacy but many of you considered me over-san guine, and therefore feeling that there was no chance for success, were inactive, and the result was Mr. Hutchinson was defeated by 110 votes.

I declare to you that the chances for Goff's success are, at this moment, far more encouraging than were Mr. Hutchinson's at the same time in 1880. I speak knowingly, because I have been in every county in the district. The people are for

You can depend upon what I say to you that Goff can and will be elected if all of you will enter the field and do your utmost during the remaining hours of the contest. I cannot be mistaken in my

Will you rally to the Republican standard once more? Will you volunteer for work at the polls? Will you take off your coats and go in for a real old fashioned groundswell of victory? Will you see to it that every Goff voter is at the polls to-There is more at stake than you think of.

The control of the next Congress is in doubt. The issue of temperance in Ohio, and the splits in our party in Pennsplvania and New York will, from present indications, lose us several Congressment in those States, from men and iron workers of Wheeling, you cannot afford to let the Democratic party get control of the next House of Representatives. Remember that the report of the Tariff Commission is to be adopted or rejected by the next Congress. Remember that the Pennocratic party is unsound on a lariff for protection. Remember that it cost great effort on the part of the iron interests of the country to defeat the Wood tariff bill which was offered by a Democratic Congress. Remember that the over half a million tariff men in this and adjoining States signed an appeal to Congress beseeching our representatives not to allow the Wood tariff bill to become a law; and you will readily recall the nervous feeling that pervaded the manufacturing and mining sections during the time of its pendency. Remember that it will cost great for the part of the par The control of the next Congress is in mining sections during the time of its pen-Remember that it will cost great effort and great anxiety to pass through this same ordeal again.

publican principles, in the name and for the sake of the manufacturing interests of Wheeling, in the name of protection, in the name of living wages for our toiling thousands, I appeal to you to put your shoulders to the wheel and short North Then, my friends, in the name of Reshoulders to the wheel and elect Nathan Goff, Jr., the soldier and patriot, who is your most distinguished fellow citizen, to the Congress of the United States. Remember this: You can deet him if you

will come forward and assert yourselves. Very respectfully,

GEO. W. ATKINSON Chairman of Cong. Ex. Com. Wheeling, Oct. 7, 1882.

The Power of Jay Gould. Gov. Crittenden, of Missouri, in an address to the people of Riehmond, Mo.,

"Fally one-third of the whole railway system of the country is under the control of Jay Gould. The railway system of the Southwest is under his command. He controls-if not directly, through others-the Union Pacific, constructed at a govern mental cost of over \$60,000,000. He con trols the Wabash system. It is said that if he had the management of the Delaware & Lackawanna system or the Erie sys-tem-both of which may fall into his pos sesion at any time-he would have an un broken railway connection from Boston to the western and southern extremities o the country. He controls the elevated railways in New York City He controls the entire telrgraphic system of this country, which places the private telegraphic communications, the press and the markets of our land, under his supervision and management. I call your attention to the list of securities under his authority, which may impress your mind with the power of this one man to contro the destinies of this country.

York, by outside instrumentalities. He can summon a Cabinet Minister, to abandon his seat to become one of his followers and executioners of his orders. It is said that within the last few days he has become the controller of the Associated Press dispatches of this country, which will give him the mastery of the whole press of this country, and by the press of the market reports, and this, any countrymen, may affect the value of the stock boards and the agricultural productions of the State. What is the danger of such a concentration of money power? It is athreat against the legislative power of every State in this Union. It is a threat against the Congressional power of all the States. It is a threat against the legislative power of every State in this Union. It is a threat against the citizen of this land, it is a threat against the freedom of this country. It is a threat against the read of this land, it is a threat against the freedom of this country. It is a threat against the purity of the ballot box. In fast, it is a threat against the whole elective system. It is a threat against one form of government, making it dependent upon the personal ends and avarice of one man, who becomes, if not a patriot above the ambition of all men save Washington, a dictator without the vestments of official position. Mr. Gould has the right under the law to acquire the control of this immense property and consequent power. That can not be questioned. I am not here to abuse him. That would not become this place nor my office. He is a man of extraordinary ability, and foresight, and of unusual ampability. In the language of Senator Edmunds, of Vermont, he is not as black as painted. The important question is flow will be use this power—for the good or evil of society? If for the good of the whole country, he will leave a name second only to that of Washington. Will he do so? I fear not."

The Seventeenth Ohlo District—Why Mr

Alexander Cannot Succeed.

Editors Intelligencer.

Your daily INTELLIGENCER of the 28th, September contains some very good edi-torial hints and suggestions to the voters of the Seventeenth Congressional District, Ohio, retrospecting their apathy and ap-parent indifference about the past, present and future prospects of the approaching election.

It is lamentably true that your remarks It is inmentably true that your remarks are applicable to a considerable extent in Belmont, Jefferson and other counties at this time, but a few days may change public sentiment and action, so that the fear of Democratic ascendency will arouse Republicans to go to the elections, and the result will be a Republican victory with perhaps less majority.

with the a regimental victory with pernaps less majority. Report says that Ross J. Alexander is busy with likewarm and sore head Repub-licans, representing himself in favor of a protective tariff, and in favor of almost all the measures which intelligent Republicans believe best calculated to promote the best interest of our common country. Doubliess nterest of our common country. Doubtles Mr. Alexander will now strive to make Republicans believe he was in favor of Lincoln's measures for the suppression of the Rebellion, and his emancipation proc-
